

## Howdy Graduate and Professional Students!

Aggie Graduate and Professional Community Club (AGPCC) is a networking and community service club devoted to connecting the Graduate Aggie Family. We host bimonthly social events and quarterly community service events for you to meet other graduate and professional students. We are currently comprised of over 1,300 graduate students from over 40 different departments on campus and we are continuing to market and grow! All graduate and professional students (and significant others) are welcome to the events, free of charge.

We offer two social events per month and two service events per semester along with many other great programs! Mark your calendars with several of our exciting events for this semester.
